DETAILED ACTION

1. Claims 1-27 have been examined.

Election/Restrictions

3. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-3 drawn to downloading and broadcasting audio advertisements and interrupting the downloading of audio advertisement data, classified in class 705/14.
 - II. Claims 4-27, drawn to providing audio communications via a website and advertisements before, during, or after the audio communications, classified in class 705/14.

Inventions I, and II are based on different sets of Independent claims. Group I involves downloading and broadcasting audio advertisements and interrupting the downloading of audio advertisement data. Group II involves providing audio communications via a website and advertisements before, during, or after the audio communications.

Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and the search required for Group I is different than the search required for Group II, restriction for examination purposes as indicated is proper.

A telephone call was made to Ronald S. Henderson at (317) 231-7341 on 2/1/2006 to

Art Unit: 3622

request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
